

Now we are at an exciting crossroad. Our current facility has hit capacity. There is no room for growth. Simply, God has given us a vision to disciple more young people and we are halted by our current facility. The prospect of turning away young adults who are interested in missions and discipleship training is troubling. God has given RMM a vision to send more workers into the harvest. So in 2007, we began to look for a building that would allow for SEND Ministries (REACH, City Challenge, etc.) and RMM a place for growth. In December 2007, we closed on a new building. Financially, this is a crazy endeavor and a huge leap of faith. Even working under a deficit, the board unanimously approved taking this big step. Following after God usually isn't safe nor does it always make good sense, but obedience is better than safety.

For those of you who are nostalgic, who tie what God has done in your life with the place that it happened, remember that it is not about the building. Let's praise God for the past and move forward. Be excited with us about what God has in store and thank Him for the lives He will impact through it. Thank you for your prayers and financial support over the last years. We have a lot of work ahead of us to renovate the building. Please continue to pray for us as we follow His lead.

... And by the way, we extend our invitation to help any way you can, be it physically or financially.
